SUMMARY

Senior Frontend Engineer (7+ years) specializing in React and TypeScript. Built and scaled production web apps (tens of thousands of users), from 0'1 and beyond. Strong in performance, DX, and cross-functional delivery. Comfortable leading initiatives, mentoring, and shipping fast with quality.

EXPERIENCE

Dar

Senior Frontend Developer

May 2023 - Present

Dubai, UAE

- Building an online 3D visualization tool (Three.js) for enterprise clients (airports, hospitals) to explore building plans and real-time data.
- Partnering with design and engineering teams to streamline workflows and communication across domains.
- Developing interactive UIs in React, TypeScript, and Next.js; improved engagement by 5% and reduced load times by 20% in production.

Huspy

Senior Front End Engineer

Jan 2021 - May 2023

Dubai, UAE

- Built a white-label platform enabling partners to customize and deploy faster.
- Interviewed frontend candidates and managed quarterly engineering OKRs.
- Migrated the B2C app from CRA (CSR) to Next.js (SSR), cutting page load times and improving UX.
- Had the chance to lead a team to build the main customer-facing product; improved engagement and satisfaction.

Huspy

Founding Software Engineer

Feb 2020 - Jan 2021

Dubai, UAE

- Built Huspy's main B2C product from scratch as the sole Frontend Engineer (React, TypeScript).
- Shipped new landing page and customer dashboard (Figma ' React), improving UI and retention.
- Served as the main point of contact for the frontend codebase.

Quinnia

Frontend Developer

Nov 2019 - Oct 2020

USA - Remote

Cognitev

Full Stack Engineer

Jun 2019 - Mar 2020

Cairo, Egypt

- Built and maintained two large React apps; implemented backend features in Node.js and Python.
- Embedded dynamic components into static apps using Knockout.js; collaborated closely with cross-functional teams.
- Collaborated with cross-functional teams (Cognitev was the most dynamic startup in Egypt at that time).

Coligo

Front End Engineer

Nov 2018 - May 2019

Cairo, Egypt

- I was responsible for the company's main React Frontend application, being the only FE focused member of the team.
- I started working for Coligo during my university time, it was a foundational experience.
